

Privacy protection and open INSPIRE data: clash of the titans, or making two worlds meet?

Bastiaan van Loenen
Glenn Vancauwenberghe

Discussion

Proposition 1

- Data protection in the context of INSPIRE is a non-issue: INSPIRE is about objects **not** subjects

Proposition 2

- The GDPR endangers the INSPIRE objectives

Proposition 3

- The best strategy to address data protection in the INSPIRE context is to hide until the data protection wave has passed: do not awaken the data protection supervisory authorities!

Finally..

- How about an informal INSPIRE/data protection group to discuss developments in INSPIRE countries?

Privacy protection and open INSPIRE data: clash of the titans, or making two worlds meet?
