INSPIRATION – Regional Perspective of INSPIRE Implementation

Christian Ansorge, Fritz Kroiss, Ivica Skender
INSPIRE Conference 2013, Florence
27th June, 2013
INSPIRATION – Spatial Data Infrastructure in the Western Balkans

INSPIRATION Project

- Multicountry project funded by the European Union
- Support the development of a sustainable SDI towards INSPIRE
- Consortium with a lot of experience in a wide range of fields
Participating countries

- Croatia
- Serbia
- Bosnia - Herzegovina
- Montenegro
- FYROM
- Albania
- Kosovo*

*This designation is without prejudice to positions on status, and is in line with UNSC 1244 and the ICJ advisory opinion on the Kosovo declaration of independence
Project target groups

• Main beneficiaries
  – National Mapping and Cadastre Authorities (NMCA’s)

• Secondary beneficiaries
  – Universities
  – Ministries of Environment

• Tertiary beneficiaries
  – Further NSDI stakeholders (e.g. other governmental institutions, private surveying, Geospatial commercial sector, Research organisations, etc.)
Success factors of NSDIs

• Make spatial data and metadata available and accessible: this is the essence of SDI
• Build a consensus process - build on common interests and create a common vision
• Establish the institutional and policy framework
• Create political support via an SDI council
• User awareness
INSPIRATION structure

Activity 1
Policy, institutional and legislative framework analyses
- Regional SDI Legislation Framework Analysis
- Individual SDI Legislation Recommendation Report

Activity 2
Capacity building and knowledge transfer
- Regional SDI & Land Administration Capacity and Education Study
- 14 National workshops
- 3 INSPIRE trainings

Activity 3
Awareness raising and communication
- Regional Public Awareness Study
- SDI awareness measures (e.g. 7 INSPIRE Open days, ideas competition)
Cooperation

**Cooperation needed?**
