Joint Research Centre

EULF/ARE3NA and ELISE workshop

ELISE team

*Barcelona, 29 September 2016
INSPIRE Conference*

Workshop objectives

- to understand current and future EC INSPIRE-related activities in the e-Government arena
- to exchange ideas on the use and fitness for purpose of the outputs of EULF and ARE3NA
- sharing any experience of the application of these outputs in Member States so far
- Give an overview of ELISE project

Roles and Hats

Colored Hat	Category	Detailed Description
	Policy Makers	EU or MS government representatives responsible for preparing, adopting, overseeing implementation, or assessing the impact of policy or legislation
	Public sector data providers	Public sector staff with responsibilities to collect, assemble, publish and share data with other public sector stakeholders, businesses and citizens
	e-Government service providers	Public sector stakeholders responsible for design, implementation and operation ICT-enabled public services for citizens, businesses and other parts of government
	Private sector product/service providers	Private sector entrepreneurs or developers of products and services using public sector data

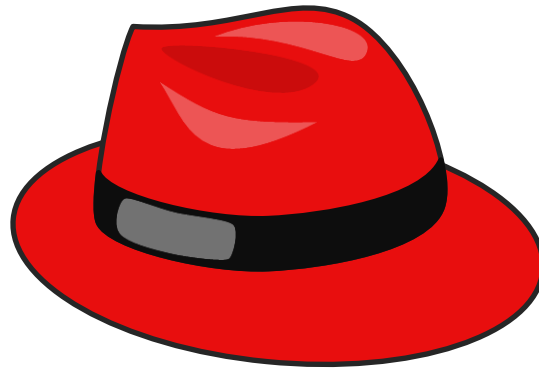

Three questions

- What are your needs, related to the location information interoperability?
- Have these needs been met (or not) by EULF and ARE3NA
- What can be done to fill the existing gaps?

Time schedule

10 min	Workshop – Welcome and introduction to the workshop (Ray Boguslawski)
15 min	EULF and ARE3NA: ambitions and outputs (Francesco Pignatelli, Robin Smith)
40 min	Interactive session
12 min	Discussion wrap-up from groups (1 facilitator and 1 participant)
13 min	Conclusions and outline of ELISE Roadmap (Ray Boguslawski)

Red hat - Policy makers

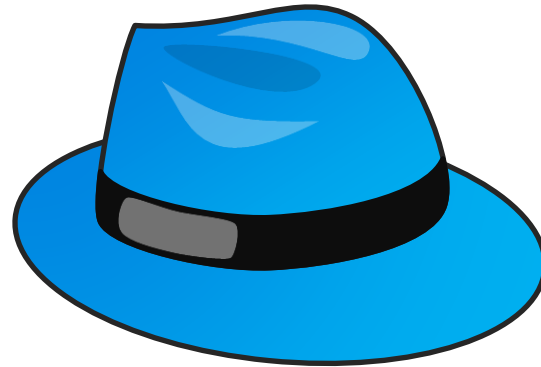

EU or MS government representatives responsible for preparing, adopting, overseeing implementation, or assessing the impact of policy or legislation

Black hat: Public sector data providers

Public sector staff with responsibilities to collect, assemble, publish and share data with other public sector stakeholders, businesses and citizens

Blue hat: e-Government service providers

Public sector stakeholders responsible for design, implementation and operation ICT-enabled public services for citizens, businesses and other parts of government

Green hat: Private sector product/service providers

Private sector entrepreneurs or developers of products and services using public sector data
