

Agreed changes to the INSPIRE Technical Documentation for “D2.8.I.2 Data Specification on Administrative Units – Technical Guidelines” version 3.1

Color coded legend: **onlineDescription** - red color: what is proposed to be changed
externalDescription – yellow color: what is the precise change

Change: 1

Affected documents: **TG, UML, Code list Registry**

Themes: **Administrative Units**

Subject: AU - Provide reference to the CountryCode list according to GML3.3 as an “Externally governed code list”

Description: The INSPIRE CountryCode code list does not contain any value, instead it refers to an external link, http://epp.eurostat.ec.europa.eu/statistics_explained/index.php/Glossary:European_Union (EU), where you can search for the country codes. According to the Implementing Rules, which refer (Sec. 4.2) to the Interinstitutional style guide published by the Publications Office of the European Union, the External Reference Link for the CountryCode code list should be <http://publications.europa.eu/code/en/en-5000600.htm> , a more useful link directly providing the ‘Country and territory codes’ table.

Corrigendum: Provide reference to CountryCode list according to GML3.3

1) UML application schema "Base Types2" diagram IR code lists - **remove any values**, change extensibility from **"none"** to **"any"** in accordance with IR amendment 1253_2013 (6b)

2) In the TG **add additional section "Externally governed code lists"** as in framework document "INSPIRE DS template v3.0rc3" (**section 5.3.3**)

3) Codelist registry

- change extensibility from **"not extensible"** to **"any"** in accordance with IR amendment 1253_2013 (6b)

- add a new document should to the INSPIRE reference document register, pointing to the annex of the interinstitutional style guide containing the country codes:

<http://publications.europa.eu/code/en/en-5000600.htm>

- create a new version of <http://inspire.ec.europa.eu/codelist/CountryCode/> pointing to the new document

Discussion link: <https://themes.jrc.ec.europa.eu/discussion/view/36661/inspire-countrycode-code-list>

Change: 2

Affected documents: **IR, UML, TG, XML schema, existing GML data sets**

Themes: **Administrative Units**

Subject: Typo - endLifepanVersion

Description: The attribute endLifespanVersion of the MaritimeZone spatial object type defined in [section 4.3.1.3. of annex II](#) is misspelled (as “endLifepanVersion“) in most versions but the spelling has been corrected in some versions.

It is wrongly spelled in the GML Schema, existing spatial datasets, the UML representation, Technical Guidelines and the Commission Regulation (EU) No 1253/2013.

Corrigendum: Correct the spelling of attribute **endLifepanVersion** to **endLifespanVersion** wherever it appears (IR, TG, UML, GML Schema).
