Accès aux données du territoire

Contribution au catalogue

Accès aux données de personnes ayant donné leur consentement

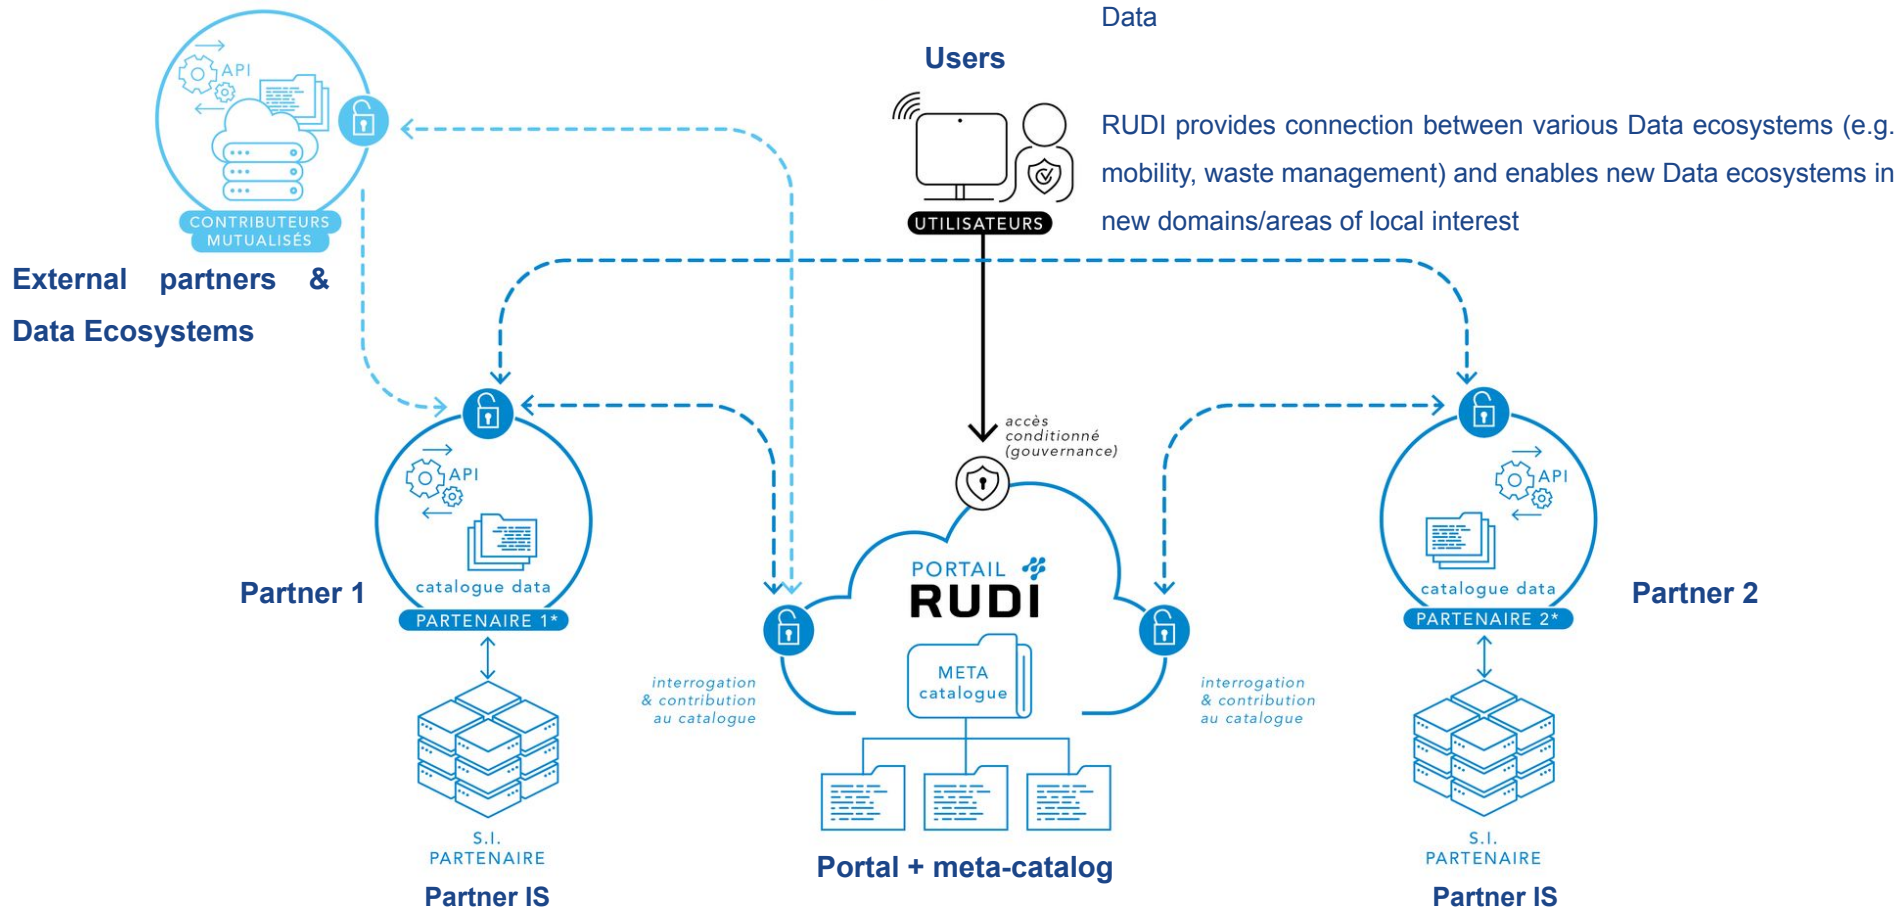

Increasing interoperability, ease of access and network effects among local/urban stakeholders

Rennes pioneered Open Data in 2010.

Many Data of public interest are private and could foster innovation at the city scale

# RUDI Data Ecosystems

RUDI helps local innovators, service providers and Data providers to cooperate around Data to produce new services and broadcast Data

RUDI provides connection between various Data ecosystems (e.g. mobility, waste management) and enables new Data ecosystems in new domains/areas of local interest

# RUDI main partners
